

MODEL X SUNSHADE INSTALLATION

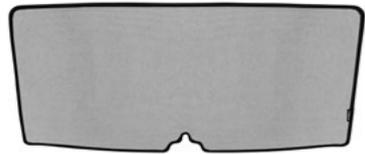

PACKAGE CONTENTS

Constructed of lightweight mesh fabric with a collapsible rigid frame, the Front Upper Windshield Sunshade blocks two thirds of light and heat coming through the front upper windshield. Easily removable, the sunshade is installed onto the interior of the windshield within seconds. When removed, the shade collapses and is stored in a pouch.

The Model X Front Upper Windshield Sunshade Package contains:

1
SUNSHADE

1
STORAGE POUCH

2
MOUNTING CLIPS

Note: If any of these parts are missing, email ServiceHelpNA@tesla.com.

This product is not a toy. Keep sunshade, storage pouch and mounting clips away from children. If any item is damaged or broken, return to Tesla or discard properly.

STEP 1

UNZIP THE POUCH AND REMOVE THE SUNSHADE.

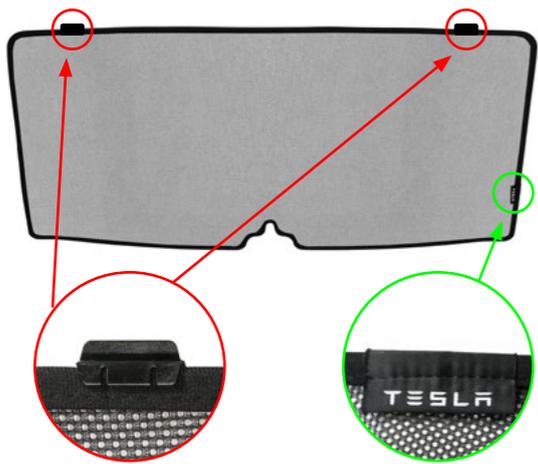

Take care not to lose the two included plastic mounting clips.

Note: The Sunshade should pop open when you remove it from the pouch. If it doesn't, unfold the Sunshade. The Sunshade will fully expand.

STEP 2

ENSURE THAT THE MOUNTING CLIPS ARE SECURELY ATTACHED.

Place the Sunshade on a flat surface and orient it so that the notched edge is on the bottom and the Tesla tag is on the lower right.

Confirm that both clips are securely attached in the approximate pictured positions.

If a clip needs to be re-attached, hold the clip with the taller side away from you and press the clip onto the edge of the Sunshade until it clips securely.

STEP 3

INSERT THE CLIPPED EDGE OF THE SUNSHADE INTO THE GAP BETWEEN THE WINDSHIELD AND THE HEADLINER.

Note: Be sure to fold away the sun visors prior to installing the Sunshade.

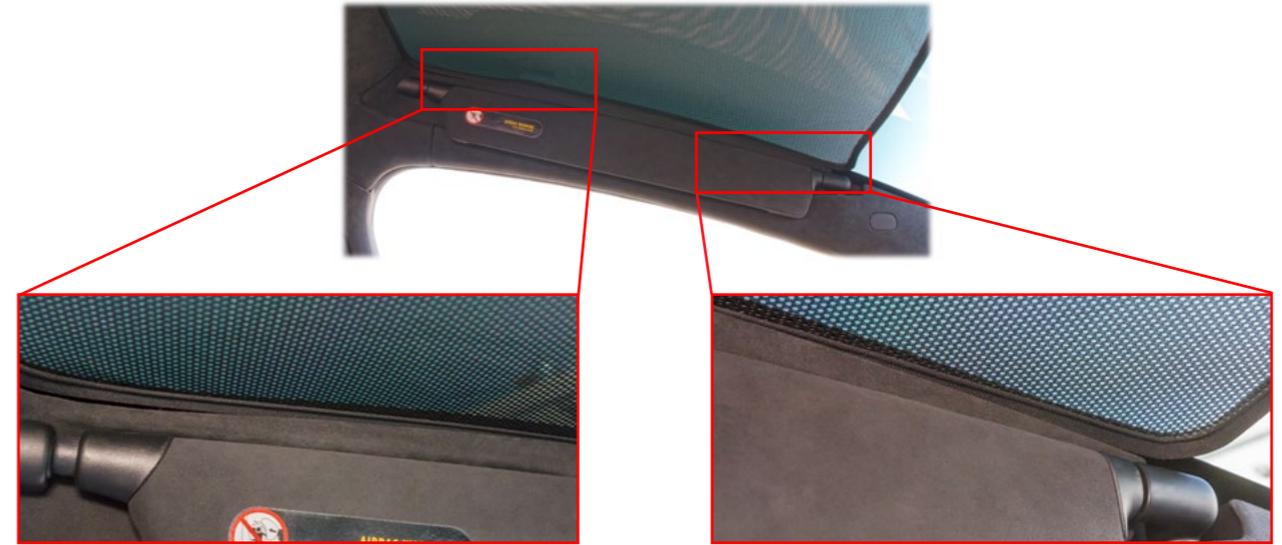

STEP 4
SECURE THE FRONT OF THE SUNSHADE AROUND THE REAR VIEW MIRROR.

STEP 5
TUCK THE EDGES OF THE SUNSHADE BEHIND THE TRIM PIECES.

Note: The Sunshade should fit securely against the windshield.

REMOVING THE SUNSHADE

Grasp the Sunshade by one of the exposed edges near the rear view mirror. Carefully pull it down and remove the Sunshade.

Note: Take care to make sure the plastic clips do not become detached and lost.

FOLDING THE SUNSHADE

Note: The Sunshade can be folded and stored in its included pouch.

Grip the Sunshade on both sides.

Bring your hands together while twisting the Sunshade.

Continue to bring your hands together while twisting the Sunshade until it folds completely flat.
