Track your solar production and view the status of your Solar Inverter in the Tesla app.
Connectivity

Your Solar Inverter sends solar energy and power data to the Tesla app via a Wi-Fi connection.

Learn how to change your connection at tesla.com/support/energy/solar-inverter/connectivity
How does it work?

1. Solar Panels
2. Solar Inverter
3. Main Panel w/ Energy Meter
4. Tesla App
Turning your system on or off

To turn your system on or off, flip the AC breaker labeled ‘PV Inverter’ in the main panel.
